LaGuardia High School Application and Planning For Grades 7–9

With over 20 years of professional experience in art education and planning, our instructors personally guide students through every step of the LaGuardia High School application process—from school review and auditions to one-on-one portfolio development. LaGuardia, as a specialized high school, admits students based on **artistic talent and portfolio + audition**. Applicants typically need 8–15 original artworks that demonstrate a range of media and creative approaches, including observational drawing, memory-based work, and imaginative pieces. Our teachers identify each student's strengths and help them stand out during the application process so they can be admitted to their ideal specialized high school.

OUR LOCATIONS:

Flushing Location

75–27 Parsons Blvd, Fresh Meadows,

Bayside Location

Syosset Location

18 Jackson Ave, Suite 5 Syosset

Portfolio Planning for Biology, Business, Architecture, Art & Design, and Computer Engineering Grades 9–12

With over 20 years of professional experience in art education and portfolio development, our instructors personally guide students through the entire portfolio preparation process.

Our curriculum philosophy is that a strong portfolio must demonstrate three core abilities:

1. **Observational Skills** – drawing from life, understanding structure, material rendering, and spatial awareness.
2. **Design Thinking** – problem-solving, creative strategies, and conceptual development.
3. **Visual Communication** – layout, color, and storytelling.

Students ultimately produce 12–20 high-quality works.

We also offer free educational trips to Manhattan museums, provide design-related volunteer opportunities, and host student exhibitions.
